

# Home fire safety check

## Helping you make your home safer

Upon request, we will give you advice or visit your home to carry out a **free** home fire safety check. As part of this visit we are able to refer you for a Winter Wellness check e.g. heating assessment, heating grants, and audiology referrals. This service is provided free of charge.

In order for us to assess your level of need, we need to ask some questions about you or the occupier of the property. Those with the greatest need in the community will be eligible for a free home fire safety check and will be contacted to arrange an appointment.

Trained staff will visit your property to provide advice on fire safety in the home plus escape plan guidance in the event of a fire and fitment of smoke detection if required.

To get your free home fire safety check call:
